AP: United States Government and Politics, Biology, Calculus AB, Calculus B,C Chemistry, Computer Science A, Language & Composition, Literature & Composition, European History, US History, Macroeconomics, Physics, Psychology and more.

Capstone Courses and Senior Projects: Capstone courses are a teacher-created counterpart to AP courses: APs typically cover a lot of content, broadly, while capstones offer students the opportunity to dive deep into a narrow segment of a field. In these advanced, college-level courses, our teachers' talents shine as they develop original courses often tied to their own academic passions or areas of expertise. In each capstone, students transition from the classroom-style learning typical of high school to discussion-based or lab-based learning typical of college courses.

Facilities

The school covers an area of 11 acres and has first-class modern facilities. There are rich and colorful activities both inside and outside the school.

College Matriculation

51% of the students entered the top 50 universities in the United States. In the past five years, Harvard University, Yale University, Berkeley Conservatory of Music, Princeton University, Pennsylvania University, Columbia University, Dartmouth College, Duke University, New York University, Northwest University, Cornell University, Johns Hopkins University, Case Western Reserve University, Carnegie Mellon University, etc. Brown University, University of California, University of Florida, Stanford University, Tufts University, University of Southern California, University of Virginia, Whitman College, William Mary College, University of Colorado, Northeast University, Boston University, Boston College, etc.
